

Book Review

Australian Baby Hands

The gift of communication between parents and their babies is one of life's true joys. With this exciting new book *Australian Baby Hands*, the process of communicating with babies could happen sooner than you think!

Australian Baby Hands has been designed especially for Australian families to incorporate the use of Australian sign language.

Studies in baby sign language have shown numerous benefits including higher I.Q., advanced early literacy skills, improved memory and enhanced confidence and self-esteem for your baby.

Australian Baby Hands shows you simple steps on how to communicate with babies using Australian Sign Language. It is easy to read and the pictures are clear enabling staff to easily learn the signs. By introducing baby sign language into your centre, it won't be long before your babies could be signing back to you. This could be a great marketing tool for your centre.

Australian Baby Hands is available now at www.australianbabyhands.com and all major bookstores nationwide retailing at \$29.95.

Several Sydney childcare centres have already introduced the use of *Australian Baby Hands* Childcare Centre Pack which helps introduce baby sign language into the childcare centre environment. For further information on the *Australian Baby Hands* Child Care Centre Packs contact info@australianbabyhands.com
